POLLOCK RESIDENTIAL ELEVATOR

TAKING YOUR HOME TO THE NEXT LEVEL

pollock Residential Elevators Inc

ENHANCE YOUR HOME AND INDEPENDENCE WELL INTO THE FUTURE WITH THE POLLOCK RESIDENTIAL SHAFTLESS ELEVATOR!

The homelift is quick and easy to install and typically sits close to the wall but is not attached. So, when the cabin isn't in the room, you can enjoy all your living space.

Since 1983, Pollock Lifts have been Ireland's only Residential Elevator manufacturer and the ultimate choice for adding value to home access using the latest technology.

From installation to operation, every detail has been designed with you in mind.

Footprint*
31 ⅛" (W) X 43 ¼" (L)

Internal
25 5⁄16" (W) X 29 ½" (L)

Footprint*
43 ¾" (W) X 43 ¾" (L)

Internal
33 7⁄16" (W) X 29 ½" (L)

Footprint*
43 ¼" (W) X 62 ⅞" (L)

Internal
33 7⁄16" (W) X 49 3⁄16" (L)

**Measured to the Floor Liner, add 2" rear wall and 1 ½" side wall for total clearance*

KEY AVAILABLE FEATURES:

- Quiet motor located at the second floor ceiling, motor does not travel with the cabin, so no main power trailing cable moving with the lift.
- Every model includes a shallow ramp ensuring easy transition for accessible model, and minimizes trip hazard when using your lift.
- Constant pressure handrail controls as standard for ergonomic operation, and comfortable for users of each footprint.
- In-cabin technology; i.e., diagnostic display allow for self-diagnosis, providing peace of mind if a sensor is activated or the door isn't closed.
- Service Due Indicator alerts the user with an overdue notification to ensure regular maintenance.
